

I am writing concerning the new Low Power FM proposal. I am a listener of K-LOVE. It is the ONLY radio station tha I listen to. I am a mother and find other radio stations too offensive. I value the time I share with my children in the car listening to K-LOVE. We often discuss information shared in a no threatening/offensive manner during the broadcast. I believe that without K-LOVE in our area, there would be NO "family friendly" alternative in our area of KY. Please donot take away something so very positive in a somewhat negative world. Thank you.
